about the product

**Mamia Größe New Born, Mini, Midi/3, Maxi/4, Maxi Plus/4+, Junior/5, Junior Plus/5+, XL/6, XL plus/6+, 7, 7+**

## Clinical application study under dermatological control

The test product was applied during a period of four weeks by 20 subjects several times a day onto the nappy area. From the clinical-dermatological point of view, no relevant skin reactions occurred in the test area; the product was tolerated

**excellently.**

Neither intolerance reactions suggestive of irritation nor allergic reactions (contact dermatitis) were detected. Accordingly, from the dermatological viewpoint, there is no high potential for irritation and sensitisation for the tested product when this is used as intended.
